

Nicholas M. Johnson

nickjohnson.site ~ (720)412-6049 ~ [LinkedIn](#) ~ nmj37@cornell.edu

EDUCATION

Cornell University, College of Engineering, Ithaca, NY

Bachelor of Engineering - BE, Computer Science

May 2026

TECHNICAL SKILLS

Skills: Python • Java • C++ • SQL • JavaScript • Solidity • OCaml • HTML • Flask • MATLAB • Solidworks • Excel • LangChain

RELEVANT EXPERIENCE

Cornell Rocketry, *Recovery and Payload Team*, Ithaca, NY

September 2021 – May 2024

- Engineered autopilot flight software integrating GPS, altimeter, compass, and accelerometer data to guide payload recovery to a predefined landing zone
- Designed and implemented a solar panel deployment and positioning system to recharge flight batteries
- Worked alongside a large team to take home the Spaceport America Cup

Versa Finance, *Founder*, San Francisco, CA

February 2020 – January 2021

- Prototyped personal finance app leveraging bank account data, machine learning, and behavioral psychology to curb spending and increase savings
- Led a team of 12 in the creation of a business plan, marketing plan, psychological validation, and machine learning bank statement analysis

Infrared Air, *Founder*, Boulder, CO

August 2019 – May 2020

- Engineered a drone platform integrating RGB and thermal imaging to identify and diagnose defective solar cells
- Conducted inspections of 100+ residential and commercial solar arrays

LEADERSHIP EXPERIENCE

Flight Discovery Program, *Founder*, Lyons, CO

August 2019 – May 2020

- Designed hands on school curriculum to educate and inspire students in the field of flight
- Taught two fifth-grade classes aerodynamics, drone piloting, and rocketry, culminating in student-designed rocket launches

Light My Fire Camp, *Founder*, Lyons, CO

April 2019 – June 2019

- Founded and organized a camp to match middle school students with high school students with similar interests to work on projects of their choosing
- Fundraised to make camp participation and projects fully free for all accepted students

ADDITIONAL EXPERIENCE

LifeTote, *Co-Founder*, Boulder, CO

December 2021 – September 2024

- Prototyped and engineered a convertible tote bag that rapidly transforms into a bulletproof vest
- Negotiated with suppliers and local manufacturers to reduce cost and shorten lead times
- Launched company website and Kickstarter campaign, developed business plan, and secured patent protection
- Scaled revenue to \$50k and Improved product quality while cutting manufacturing costs by 60%

East Penn Manufacturing, *Material Handler*, Boulder, CO

December 2024 – June 2025

- Executed warehouse operations, including order packing and fulfillment and interacted with customers across Colorado

PROJECT EXPERIENCE

Solid-Guard, Explorations in ML, Cornell University, Ithaca, NY

January 2025 – May 2025

- Engineered a reproducible smart contract security dataset pipeline that generates paired malicious and safe Solidity contracts, runs Slither static analysis, and analyzes for common attack vulnerabilities

Clairvoyant Crime Detection, Independent, Ithaca, NY

January 2026 – April 2026

- Built an AI-powered video surveillance search engine using React, TypeScript, and FastAPI, enabling natural language queries across multi-camera feeds with sub-300ms retrieval via PGVector ANN search
- Engineered a cross-camera entity re-identification system with confidence scoring, real-time clip playback
